1 Background

1.1 Bank Holidays 2019

A pharmacy must open to provide pharmaceutical services for its core contractual and supplementary hours each week. Where the pharmacy would ordinarily be open on a Bank Holiday (including Good Friday, Easter Sunday and, Christmas Day) the hours that it would ordinarily be open will, on those days, be treated as having been open for the purpose of counting the core contractual hours that week.

In England, the days that a pharmacy will not be required to open during May/August 2019 are:-

6th May Early May Bank Holiday	Bank Holiday <i>Except for Weldricks in North Lincolnshire who are contracted for 365 days per year through an LPS contract</i>
27th May 2019 Spring Bank Holiday	Bank Holiday <i>Except for Weldricks in North Lincolnshire who are contracted for 365 days per year through an LPS contract</i>
26th August 2019 Summer Bank Holiday	Bank Holiday <i>Except for Weldricks in North Lincolnshire who are contracted for 365 days per year through an LPS contract</i>

1.2 Direct to Open

Pharmacy contractors are encouraged to inform NHS England whether their premises will be open on Bank Holidays. This information is of critical importance to NHS England in order to enable it to plan and commission pharmacy provision during holiday periods.

To ensure sufficient provision of Pharmaceutical services NHS England may direct a pharmacy or pharmacies to open if the needs of people in the area are not met through voluntary or commissioned Bank Holiday opening hours, NHS England has the power to issue a direction requiring the pharmacy to open, but must if doing so ensure the pharmacy receives reasonable remuneration.

During the planning for May/August 2019 NHS England has been required to direct a number of pharmacies to open in addition to the existing directions that are in place, those directions are within the following areas:-

1.4 Palliative Care Providers

To enable the prompt supply of specialist palliative care medicines, the demand for which may be urgent and/or unpredictable some CCG areas commission a number of pharmacies to maintain a stock in the event that they are required.

The pharmacy contractor is commissioned to stock a locally agreed range of palliative care medicines and makes a commitment to ensure that users of this service have prompt access to these medicines at all times.

The pharmacy also provides information and advice to the user, carer and clinician. They may also refer to specialist centres, support groups or other health and social care professionals where appropriate.

1.5 Minor Ailment Scheme Providers (MAS)

The treatment of minor ailments has been found to account for 18 - 20% of GP workload, with 90% of such consultations being solely for a minor ailment. It has also been shown that 8% of emergency department consultations involve consultations for minor ailments. Many of these consultations could be dealt with by Community Pharmacy staff who are already trained and competent in this area of care.

The scheme will encourage everyone to consult Pharmacy staff as a first point of call for a minor ailment. For a defined list of minor ailments, medication considered necessary for treatment will be provided free of charge for those patients who are exempt from prescription charges. Those who would usually pay for their prescriptions will still be encouraged to purchase their medication, as many of the treatments will cost less than the prescription charge.

Aims and intended outcomes

- To improve primary care capacity by reducing medical practice workload related to minor ailments.
- To improve access and choice for people with minor ailments by:

Promoting self-care through the pharmacy, including provision of advice, printed information relevant to the minor ailment and where appropriate medicines without the need to visit the GP practice;

Operating a referral system from local medical practices; and

Supplying appropriate medicines at NHS expense to patients who are exempt from prescription charges

1.6 Pharmacy Urgent Medication Service (PURMS)

Up to 30% of all calls to NHS 111 services on a Saturday are urgent requests for repeat medication. This can block GP out of hours (GPOOH) appointments, disrupt the usual repeat prescribing and dispensing cycle, and increase the potential for medicines waste. A small number of patients also attend A&E to obtain urgently needed medicines.

Pharmacy Urgent Repeat Medicine Services (PURM) aim to facilitate appropriate access to repeat medication out-of-hours by sending patients directly to community pharmacy, relieving pressure on urgent and emergency care services, saving money and shortening the patient pathway.

1.7 NHS Urgent Medicine Supply Advanced Services (NUMSAS)

Many Community Pharmacies across the region provide the NHS Urgent Medicine Supply Advanced Service (NUMSAS). To access the service patients must ring NHS 111 who will in turn triage the patient and refer them to the most appropriate service. The NUMSAS service manages a referral from NHS 111 or an Integrated Urgent Care Clinical Assessment Service (IUC CAS) centre to a community pharmacy, where a patient needs urgent access to a medicine or appliance that they have been previously prescribed on an NHS prescription. The service enables appropriate Out of Hours (OOH) access to medicines or appliances via community pharmacy, relieving pressure on urgent and emergency care services, by shifting demand from GP OOH providers to community pharmacy. There must be an urgent need for the medicine or appliance and it must be impractical for the patient to Obtain an NHS prescription for it without undue delay.
