Provisionally registered pharmacists

Do you know a **provisionally registered pharmacist** who is working in community pharmacy? Could they be eligible to receive **FREE one to one educational support** with their foundation year? If you do then encourage them to apply for the **FREE CPPE Foundation Pharmacist programme** – applications are now open by the CPPE website.

[Apply for the CPPE Foundation Pharmacist Programme 2020/21 here.](#)

Contact foundationpractice@cppe.ac.uk if you cannot find the answers to your questions about the pathway on the *Foundation pharmacist programme 2020/21* pages of our website [foundation-pathway-fags.pdf \(cppe.ac.uk\)](#) **Applications close 10th May 2021**

Pharmacy professionals wishing to access the PCPEP pathway

If you are employed by a Primary Care Network funded by the directed enhanced service additional role reimbursement scheme you are eligible for the Primary care pharmacy education pathway. Due to unprecedented demand we are not yet able to open the next cohort for booking. Please apply to this waiting list and as soon as we open the cohort for booking we will email you to let you know.

You can apply to the waiting list here:

Primary care pharmacy education pathway waiting list:

(www.cppe.ac.uk/programmes//pcpwait-w-01)

The Primary care essentials e-course which is part of module 1 of the pathway is available for you to start at anytime.

Primary care essentials e-course : CPPE (www.cppe.ac.uk/programmes//pcp-ec-01)

All workshops are open to all pharmacy professionals, including provisionally & pre-registration pharmacists

Primary care learning for non PCN pharmacy professionals

[This document](#) highlights the extensive CPPE learning opportunities available to all pharmacy professionals who are not eligible for the extended training pathway.

Online workshops open for bookings April to September 2021

***NEW* Depression**

At least a third of the population will experience an episode of mild depression during their lifetime. The burden imposed on family, carers and the wider society is reduced if depression is recognised early and treated effectively. This programme will equip pharmacists to identify how they can address concerns of people with depression, optimise their medicines and achieve better health outcomes.

Deprescribing

In this programme, we will explore how all pharmacy professionals can contribute towards safe and appropriate deprescribing of medicines. You will learn how to recognise a person-centred approach that considers the patient's perspective and experiences and apply a stepwise approach to the process of deprescribing from identification through to reducing or stopping a medicine.
